COPYRIGHT STATEMENT

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials including foreign works under certain conditions. In addition, the United States extends protection to foreign works by means of various international conventions, bilateral agreements, and proclamations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

The Columbia University Libraries reserve the right to refuse to accept a copying order if, in its judgement, fulfillment of the order would involve violation of the copyright law.

Foreword

This book has been compiled and published by the Securities Research Co. with the hope that it will prove of real benefit to the average mining stock Investor as well as serving the needs of Brokers, Bankers, Librarians, etc.

All the information contained in the manual has been carefully compiled. We invite, however, any corrections or criticisms that our subscribers may wish to make and we will be very grateful for errors called to our attention.

We have attempted to include all the important facts, which would enlighten the information seeker, on mining securities, and we trust that our efforts prove satisfactory.

The list of obsolete stocks included in this book are completely described so that there cannot be any question as to the identification of the security, which is a very important factor. We have arranged this list so that the name of the stock is given first, and then followed by the par value, the State and date of incorporation and finally, the year in which the Company went out of business or was legally declared dead.

We earnestly invite our subscribers to make full use of our Research Department. Enclosed you will find coupons entitling you to reports at a special price. One report is free.

In conclusion, we wish to mention our appreciation for the cooperation given us by Mr. John B. Geres in compiling this book.
